The American Checkbook

- **Checks still a major form of payment**
- **Retail has seen some decline but other sectors are on the rise like; Check 21+, checks by phone and ecommerce**
- **Consumers still want to use checks...**

WHY?

- **Float**
- **Habit**
- **Record Keeping**
- **No credit/debit card**
- **ECC (Electronic Check Conversion) is like a credit card sale**

Merchant initiates transaction

Terminal generates a request packet

1. MID (Site/Location/Program)
2. Routing/Account/Check Number
3. Amount
4. DL#/State

**Host network validates
The data against the
negative
Database to
authorize/decline
The transaction, and
captures
The transaction data.**

**Terminal receives the response
And generates the appropriate
Receipt. The consumer MUST
Sign the receipt.**

**Transaction
Data is
retrieved
from the
host by GETI**

**GETI
forwards
transaction
data for
approved
transactions
to the ODFI**

**ODFI
(Originating
Depository
Financial
Institution)
routes the
funds
through the
Federal
Reserve**

**Federal
Reserve
Withdraws the
funds
From the
consumers
account and
funds are
deposited to
GETI**

**Return process
Can be attempted up
To three times**

**Merchant receives deposit
Direct from GETI in 48 – 72 hours.
GETI recoups the funds from the
Consumers account.**

*Check Float**

- **Customer can write a check when they do not have funds currently available.**
 - **With our new check program, the merchant will experience a two day float on any checks they write**
 - **They can write a check on Friday knowing they will not have money until Monday**
 - **As long as they have not written a bad check off the database or been reported, they will be approved**

- **Allows them to make purchases without having any money in their account**

- **We are verifying against a national negative data base and not placing a hold on any available funds.**

***Typically 2 – 3 day processing.**

Why Customers Like Checks

- **They like having a record of the transaction**
- **They love the “2 Day Float”**
- **Keeps them on a budget**
- **No risk of stolen credit card information**
- **No credit limit**
- **High interest rates on credit cards**
- **They can not qualify for credit cards**
- **They have “maxed-out” the credit cards they have**
- **They can spend cash they do not have in their pocket!**

ACH Programs

ACH Programs

eGold Services

- **eGold – Check Conversion with Guarantee**
- **Promote as a “Secure Payment”**
- **Process and accept checks “just like a credit card”**
- **Guarantee of all approved and accepted checks**
- **Check is returned to consumer**
- **Similar fee structure as bankcard**

NOTE: Most business checks are acceptable for guarantee and conversion. The terminal will determine eligibility of the check. See “No ACH” Slide for Details.

eGold Services

➤ **Merchant benefits**

- **Improved cash flow**
- **Reduced processing fees**
- **Reduced paper processing**
- **Consolidated terminal transaction reporting**
- **Reduced time for merchant close-out and reconciliation**
- **Improved check writer experience at the point of sale**
- **One monthly Statement, One MID#**

eGold Services

eGold Requirements:

- **Must be face-to-face transaction**
- **Check must be stamped “ACH Processed”**
- **Check must be handed back to consumer**
- **Customer must complete ECC receipt**
- **Merchant will receive funding within 48-72 hours**
 - **Check writer experiences a 2 day float.**
- **Checks are verified against national negative database**

eGold Services

eGold Procedures:

- **Merchant will swipe check through a check reader or imager and input driver's license # and amount of sale**
- **Transaction will dial-out and bounce off the National Negative Database**
- **If Transaction is approved, a duplicate receipt will print and consumer completes receipt**
- **The check is stamped "ACH Processed" and check along with the receipt are handed back to the consumer.**
- **The merchant will be funded in 48 – 72 hours (consumer still experiences a 2 day float)**
- **Merchant will not be charged back for any returned checks (as long as proper procedures were followed)**

"NO ACH" Response - Personal and Business Check Guidelines

Check Conversion with Guarantee does accept Business Checks at the Point of Sale.

NACHA has lifted the restriction on "Business Checks", however there are still some checks both Business and Personal that will be ineligible for the ACH Processing.

The host will make the determination of the checks' ability to be ACH processed and respond accordingly with a "NO ACH" response at the Point of Sale. **"NO ACH" is a valid authorization.**

The merchant will simply need to present the physical check for deposit, the funds are still guaranteed according to the terms of the contract

Following are the Procedures:

If the Merchant receives a **"NO ACH"** response, then the transaction will not be able to be electronically converted "ACH'd".

The merchant will then:

1. Write the approval code given for this transaction on the front top of the check
2. Write the State and Drivers License Number and
3. Write the Phone Number to include area code and have the customer initial the top.
4. The Merchant must physically deposit this check into their bank account that day or the next business day in order for GETI to honor if returned.

NOTE: Stipulations for guarantee should be met on the face of the check prior to manual deposit.

Should the manually deposited check be returned the financial instrument or an indemnified copy must be received at the check processor's location within thirty (30) days of the date of authorization in order for this check to be guaranteed by GETI.

"GETI's policy on Business checks is that they ARE acceptable, we have programmed our host to make the determination of eligibility based on NACHA regulations."

eSilver Program

eSilver Services

- **For merchants who want limited protection against bad checks**
- **Merchant not funded on checks that do not clear the ACH Network or are returned**
- **Non-Guarantee**
- **Point of Sale Conversion**
- **Check is handed back to the consumer.**
- **Merchant funded in 72 Hours.**

Procedure at the Point of Sale

eSilver Requirements:

- **The ECC Receipt must have check writers signature, printed name and phone number legibly on the receipt.**
- **Drivers License must be entered into terminal**
- **Merchant must batch out daily and provide copy of receipt within 48 hours of Check Processor requesting it. Only if using a check reader.**
- **Check must be from a consumer's personal checking account!**
- **Refer to merchant quick tips for detailed requirements**

Merchant Responsibilities

eSilver Procedures:

- **Merchant will swipe check through a check reader or imager, merchant input drivers license # and amount of sale transaction.**
- **Terminal will dial out and bounces off the national negative database.**
- **If transaction is approved a duplicate receipt will print and customer signs receipt**
- **The check is stamped “ACH Processed” and check along with the receipt is handed back to the consumer**
- **Check Processor will fund merchant on transaction in 72 hours**
- **Merchant will not be funded on checks that do not clear the ACH network or are returned**

Paper Guarantee

Paper Guarantee

No Conversion but Guaranteed

**Checks must be deposited into the bank daily for guarantee service
Requires Bank Authorization to be signed by Merchant and taken to the
Merchants Bank.**

No check reader or imager is required

Procedure at the Point of Sale

Traditional Paper Guarantee Procedures:

- **Merchant will key in check information:**
 - Drivers License #
 - Amount of check (Merchant has option of using a check reader to read check)
- **Terminal will dial out and bounce off the national negative data base. It will issue a decline or approval.**
- **If approved, merchant will write all required information on the top of the paper check and hand back to the merchant for them to initial the top.**
- **Merchant will deposit check into bank account**
- **If check is returned, the merchants bank will forward check to GETI**
- **Only if the Bank Authorization form was signed when merchant was set up. Merchant is to take this Auth Form to their Bank.**
- **Check Processor will pay merchant the face value of the check within 30 days of authorization. Merchants Bank would have already forwarded the check to GETI.**

eBronze

eBRONZE CHECK VERIFICATION

Check Verification Only Program

**Paper Check is deposited into bank.
No Check Reader**

Procedure at the Point of Sale

1. Merchant will key in check information and driver's license # and amount of sale. (Merchant has option of using a check reader)
2. Terminal will dial out and issue a decline or approval.
3. Merchant will deposit check into bank account manually.

GETI's Virtual Terminal

The Virtual Terminal allows merchants to process checks through a web based terminal via their PC, thus eliminating the need for a costly physical terminal

Virtual Terminal:

Virtual Terminal

The GETI's Virtual Terminal allows merchants to process checks through a web based terminal via their PC, thus eliminating the need for a costly physical terminal.

Use Virtual Terminal for the following programs:

eGold, eSilver, eBronze and Traditional Paper Guarantee

With Virtual Terminal a Merchant can:

- Process Checks on a PC
- Requires Image of both sides of the check
- Process Checks for Guarantee
- Print receipts through PC Printer or credit card printer
- Void Transactions
- Perform a Manager Override

Available through VIMAS

Virtual Terminal Imagers

RDM ec7000i Series or USB Connection
MagTek Excella with USB Connection
MagTek STX with USB Connection

Check Reader vs. Imager

A check imager is not required but is recommended for the following reasons:

- **May be able to offer higher check limits**
- **Limits number of times check processor needs to contact merchants**
- **If merchant neglects to follow check processor guidelines GETI may recommend they use an imager.**

Check 21+

*Check 21+
POS and Remote -
Guarantee and Non Guarantee*

Check 21 Plus
Process ANY type of Check.
Available with Guarantee.

NEW!

Check 21+ Origins

In 2004, Congress passed legislation to change the fundamentals of processing checks. The legislation termed “Check Clearing for the 21st Century”, or Check 21, is designed to enable digital images of a paper check to substitute for the actual paper check.

The process is referred to as Remote Deposit Capture because an image of the check document is captured and used in place of the original document. One of the huge benefits is that paper checks no longer have to be physically transported to various Federal Reserve Banks and Clearing banks for processing.

Electronic processing overcomes delivery and latency problems caused by transportation delays due to weather, mechanical breakdown, or disasters. Check 21 processing facilitates faster funding on a wider variety of checks and with fewer restrictions than ACH. This flexibility makes Remote Deposit Capture ideal for many sales environments.

Checks can be accepted at the Point of Sale or when the consumer is not present. Check 21+ is a versatile payment option that fits the needs of many different merchants.

Welcome to the future of check processing!

Check 21+ Benefits:

- One of the huge benefits is that paper checks no longer have to be transported to various Federal Reserve Banks and Clearing banks for processing
- Electronic or digital processing overcomes delivery and latency problems caused by transportation delays due to weather, mechanical breakdown or disasters.
- Businesses receive paper checks for payment via mail and POS
- The original check is scanned and converted to an image known as an IRD (Image Replacement Document)
- The IRD and transaction data is securely sent to the Federal Reserve network for clearing and settlement
- The check writer's account is debited and cleared funds are deposited into the business's depository account

Check 21+

Check 21+ | Product Description

The future of check payments is here. Accept any type of check, in a point of sale or consumer-not-present environment. Electronic deposit lets you skip the trip to the bank.

REMOTE CHECK DEPOSIT

**Guarantee
Electronic Deposit
Face-to-Face or Remote**

What is Check 21+ Remote Check Deposit?

Check 21 is referred to as *Remote Deposit Capture* because an image of a check is captured and used in place of the original document.

This means of electronic check processing facilitates faster funding on a wider variety of checks and with fewer restrictions than ACH. This flexibility makes Remote Deposit Capture ideal for many sales environments. Checks can be accepted at the Point of Sale or when the consumer is not present.

Check 21+ is a versatile payment option that fits the needs of many different merchants. Welcome to the future of check processing!

Advantages over ACH

- Process all types of checks drawn on U.S. banks: Personal, Business, Government, Traveler's Cashier's, Certified, Equity Lines of Credit checks and Money Orders
- No ACH restrictions
- No receipt or consumer notification is required
- No checkwriter authorization required for electronically processing check

Examples of Businesses ideally suited for Check 21+

- Any business-to-business merchant
- Medical
- Utilities
- Government
- Educational
- Property Management and Leasing
- Insurance
- Mail Order
- Check 21+ allows many types of non-traditional businesses the opportunity to process checks in a back office environment

Versatile Solutions for Any Business

Check 21+ POS

- For Face-to-Face transactions
- Guarantee or Non-Guarantee
- Terminal or web-based processing

Check 21+ Remote

- For Consumer-Not-Present transactions
- Guarantee or Non-Guarantee
- Terminal or web-based processing

Benefits

Versatility: Accept all types of checks at the point of sale or via mail or dropbox

Security: Guaranteed funding is available

Speed: Fast electronic deposit of funds in 2-3 business days (8 business days for Payroll Cashing)

No ACH restrictions

Free, detailed online reporting of all activity

Deposits to merchant's existing bank account, not a separate account as with other processors

Skip the trip to the bank, saving time and labor

Terminal / Imager Options

All Check 21+ Programs require a check imager capable of scanning both sides of the check.

1. All-in-one Terminal or Imager	 4Access Orion
2. Check 21+ Virtual Terminal connected to an imager capable of scanning both sides of the check	<div style="display: flex; justify-content: space-around;"> <div style="text-align: center;">  Magtek Excella STX </div> <div style="text-align: center;"> 2-sided Imagers  RDM eC7000i series </div> <div style="text-align: center;">  Magtek Excella </div> </div>
3. Certified third party gateway or virtual terminal connected to an imager capable of scanning both sides of the check	 PC with Imager

Please refer to Equipment Compatibility Matrix for updated list.
Please confirm supported terminals, imagers & gateways/virtual terminals with your bankcard processor/ISO.

Check 21+

Check 21+ Requirements:

- Requires a Virtual Terminal with a Dual Sided Imager or 4Access Orion Terminal.
- Requires that the front of the check be imaged and that the merchant retains the check for 90 Days
- The check does not go back to the consumer
- The merchant keeps this check and then destroys it after 90 days
- In essence Check 21 gives a substitute check, or IRD (Image Replacement Document)
- Merchant can use existing Check Account. No separate account is required.

Check 21 + Merchant Benefits

Check 21+ Overview:

- Merchants can accept & process any type of check from their customers!
- Guarantee and Non-Guarantee Programs for Point-of-Sale and Consumer-Not-Present environments
- Allows merchant to accept *all types of checks*, including business checks, equity lines of credit checks, money orders, treasury checks, etc.
- Fast availability of funds: 2 – 3 business days
- Ideal for back office AND point of sale environments
- No ACH restrictions
- Increase sales by accepting all forms of check payment
- Eliminate bad checks
- Most check types can be guaranteed
- Can use existing checking account
- No separate account required as with some processors

Check 21 + Equipment

*Check 21+ Equipment Options:
Virtual Terminal with Dual Sided
Imager
or
4Access Orion Terminal*

Check 21+ with Virtual Terminal:

Virtual Terminal

The GETI's Virtual Terminal allows merchants to process checks through a web based terminal via their PC, thus eliminating the need for a costly physical terminal.

Use Virtual Terminal for the following programs:

Check 21+ POS and Remote- Guarantee and Non-Guarantee
(check 21 requires a dual sided image. See section below for further details.)

With Virtual Terminal a Merchant can:

- Process Checks on a PC
- Requires Image of both sides of the check
- Process Checks for Guarantee
- Print receipts through PC Printer or credit card printer
- Void Transactions
- Perform a Manager Override

Available through VIMAS

Virtual Terminal Imagers

RDM ec7000i Series or USB Connection
MagTek Excella with USB Connection
MagTek STX with USB Connection

Check 21+ Virtual Terminal

Procedures:

Merchant will log-on to:

1. Click on the Virtual Terminal Option from drop down menu.
2. Click the button labeled “click here” to Scan Check and Begin.
3. Select the type of check reader from the drop down menu
4. Click Scan Check
5. Insert the check into the scanner. After the check is scanned, it will appear in the window. Click “OK “to proceed

IMPORTANT:

1. The back of the check must be properly endorsed prior to being scanned.
2. The phone number must be on the check before imaging and
3. Merchant retains the check for 90 days. It is not handed back to the consumer.

Merchant Boarding Procedures:

1. Cynergy Data receives the Merchant Application for GETI Check Services. This could accompany a bankcard application or not. You are able to board a check only merchant with GETI.
2. Cynergy Data's Underwriting Department will confirm that this application is completely filled-out and a voided check is attached, before sending it via web service to GETI.
3. Cynergy Data submits this merchant application via and the web services sends back the approval within seconds along with the Terminal Download Form.
4. Web services will also copy in the on the approval the Tech Department, Customer Service Dept at GETI for Welcome Call .
5. Cynergy Data then builds the file. Sends EFT Receipt back to GETI. Configurations the equipment and ships it to the merchant.
6. Cynergy Data will send out Welcome Letter to include VIMAS login/pass code.
7. Cynergy Data will also send out the Welcome Kit. GETI to stock on a monthly basis.
8. GETI will place the Welcome/Training Call to the merchant. On the training date, they will review the program and if needed assist in downloading the driver's for the Virtual Terminal.
9. Higher Check Limits Requests - Once the initial approval is received back via web service Cynergy Data will have to be resubmitted with the requested amount for approval. If approved, the same process flow #4 -7apply.

NOTE: Cynergy Data has 48 hours to upload the actual merchant application. If GETI does not receive it within 48 hours, then a reserve is placed on the merchant account. Cynergy Data has agreed not to submit the merchant application until they have it on hand.

Check Limits:

Check Limits:

Checks Limits are determined by:

- Type of Business
- Length in Business
- Credit
- SIC Codes

Welcome Letter

Cynergy Data to send out Welcome Letter:

Dear Merchant,

Thank you for choosing Cynergy Data. We look forward to providing you with excellent customer service, 24/7 technical support and simplified management solutions for your business.

Don't forget to log into VIMAS® Plus—the tool that allows you to track your merchant account and submit service request tickets with a single log-in. And with V+ Messaging, a feature of VIMAS Plus, you can get account updates via text and/or email messages.

Getting started with VIMAS Plus takes no time at all. Just go to <https://vimas.cynergydata.com/corporatesite/login.asp> and enter your Merchant ID number (found on the help desk sticker included in this package). Your temporary password is **cyn**, followed by the last four digits of your Social Security number (cynxxxx). Once logged in, you will be prompted to create a new username and password.

If you have chosen our check services, simply select the Check icon from the menu on the top, right of VIMAS Plus, access the check services portal, and start managing all of your check processing.

Should you have any questions about your new merchant account or Cynergy Data products and services, Customer Support and Technical Support are here to help: (800) 933-0064.

Best wishes,
Cynergy Data

File Builds:

Cynergy Data's Tech Support Department will:

Receive a copy of the approval/download form

- 2. Build the Check File, Download, Test, configure equipment and send GETI the EFT Receipt to our Customer Service Department via Fax: 718-799-5870.**
- 3. Cynergy Data will then configure and ship-out equipment to Merchant with Welcome Kit and Letter. This will include the VIMAS single sign on log-in.**
- 4. Cynergy Data's Tech Support Department is Primary, GETI is Secondary. Tech Support Number Printed and Provided: 1-800-933-0064.**

Welcome /Training Call – Customer Service Dept.:

GETI's Customer Service Department will:

- 1. Initiates first intro call within 48 hours.**
- 2. GETI schedules training call for another day/time.**
- 3. On the training date, GETI will review program with Merchant**
- 4. If GETI is unable to reach the merchant after 4 phone calls/messages. GETI will mail the merchant a letter.**
- 5. GETI Customer Service Dept. will assist on the following:**
 - Merchant Transactions**
 - Program Questions**
 - Address Change**
 - Cancellation/Salvage**

Merchant Cancellation Policy and Procedure:

GETI's Cancellation Policy is as follows:

- **Sixty (60) day advance notice of cancellation**
- **\$125.00 Cancellation Fee.**
- **Signed Merchant Cancellation Form.**

Please have your merchant call Our Customer Service Department directly at:
1-888-481-0757
They will handle the cancellation process request.

Partner/ISO's Boarding Direct with GETI

Cynergy Data has allowed their Partners/ISO's to board direct with GETI for ALLL GETI Check Programs.

These Partners will work directly with GETI on the following:

- **Signed ISO agreement with GETI Direct for Check and Gift/Loyalty.**
- **GETI to Train Partner directly.**
- **Access to private label the check training site**
- **Standard GETI Merchant Applications**
- **Standard Customer Service and Tech Support Numbers (not Cynergy's)**
- **Standard Merchant Cancellation Form.**

Please refer these Partner Calls to:

FAQ's on Check Conversion

FAQ's on Check Conversion

Is the check writer debited automatically?

No, the check writer will experience a 2 day float before ACH of funds from the time the check is accepted.

Is stop payment offered to all merchant types?

No, only offered to automotive, boat repair, RV and motorcycle merchant

How are merchants check limits determined?

Length of business, Merchant type, Credit scores and SIC codes

Are Business Checks Acceptable?

Yes, with our Check 21+ program we can process all types of checks

FAQ's on Check Conversion

Q. Is there a warranty max for electronic check guarantee?

A. For ACH Programs (eGold, eSilver, Traditional Guarantee, etc.) Per NACHA the maximum Check Limit is \$25,000. GETI Requires supporting documents such as bank statements, financials for anything over \$10,000. For check limits we look at type of merchant, length in business, credit and internal sic codes.

Q. Is there a warranty max for electronic check guarantee?

A. Check 21+ : Pending Underwriting Approval. No NACHA maximum check limits. We look at Type of Business, Length in Business, Merchants Credit and Internal SIC Codes. The higher the check limit request is we will also Request Financials and other supporting documents as well.

FAQ's on Check Conversion

Can business checks be run or just personal

Types of Checks we can run in ACH environment:

Personal, Business, DBA; If a NO ACH Response is received on any of these types of Checks, GETI will still guarantee them under the terms of the contract. The merchant will be required to write all the info on the front of the check and Deposit this check into their bank manually. See attached "Business Check Guidelines"

Is stop payment available for eGold and Traditional Paper Guarantee Only:

Stop Payment is available for heck 21+ POS – Guarantee, but only for Auto Repair, Pain and Body Repair, Boat Repair, Motorcycle Repair and Motor Home Repair, Auto Glass Repair and Transmission Service only for all these programs. It is an additional .25% discount rate. Requires the Stop Payment Addendum to be filled out and submitted to GETI.
