C Line

Compact Countertop

The Dejavoo C Line meets the latest security standards and enables value added services through dial up connectivity, Dejavoo C5 is a perfect low cost PCI certified unit.

All You Need To Start Transacting

The Dejavoo C5 has been designed to meet key payment needs. This compact terminal offers a valuable price-performance ratio for new merchants and merchants needing to replace non-compliant terminals with the latest security, innovation and attractive price.

Dejavoo's cross platform compatibility to its X and M product lines makes the C line a reliable and attractive product in a today's POS market. With Linux OS, Embedded SQL and its Value Added Server connectivity Dejavoo provides the tools for your merchants to manage their business and increase sales.
