Elite 710

Superior price performance in a compact payment solution

TECHNICAL CHARACTERISTICS

Compact and Easy-to-use Solution

- The Elite 710 features the smallest footprint of any EFT POS terminal on the market today, enabling retailers to maximize counter space
- Horizontal bi-directional magnetic stripe reader is simple for both right and left-handed people to use
- Simple and quick to load paper

Promotes Superior Customer Service

- Easy-to-read, four-line backlit graphic display ensures error-free and fast customer checkout
- Simple-to-use and fully featured keyboard provides cognitive touch response that speeds transaction throughput while increasing operator confidence
- Backlit display and keyboard enable the 710 to be used in any lighting condition

Proven Thermal Printer Technology

- Prints crisp, legible receipts for customer and merchant
- No messy ribbons to replace
- Thermal printers cost less to operate than impact printers
- Fast thermal printer prints receipts in seconds

Inherent Investment Protection

- EMV approved smart card reader enables user to easily implement chip card-based electronic payment and value-added customer services
- RS232 port enable the merchant to easily install an e^N-Crypt 100 PIN pad for online debit, an e^N-Check 2500 check reader for check verification or Ingenico 2600 for electronic check conversion
- The Elite 710 is an Unicapt terminal, enabling the retailer or restaurant to easily add value-added customer services such as gift card and prepaid card that improve customer service as well as business profitability
