WIRELESS WHEREVER

Designed specifically for businesses that accept payments outside traditional brick-and-mortar spaces, the way5000 enables payments virtually anywhere there's a cellular signal. And it's as convenient as a wireless phone and equally simple to use. The familiar phone interface makes the way5000 ideal for mobile businesses ready to accept payments wherever they do business.

way5000

Wireless Payments Plus
- Take payments on the road with the wireless handheld device that looks, feels and operates much like a mobile phone
- Simple interface with familiar cell phone keypad and joystick navigation
- Backlit display facilitates payment in poor lighting, indoors and outdoors
- Full payment solution for credit, PIN debit and signature debit
- Supports tips, tolls, receipts and invoice numbers, as well as AVS and CVV/CVC verification (optional)
- Ready-to-go solution right out of the box, with setup and activation completed in advance

Endless Possibilities
- Payments are just the beginning with the first cell phone payment solution that supports applications beyond traditional payment
- Included SDK (Software Development Kit) allows for the development of other payment and non-payment services
- Revenue-generating applications like gift cards and loyalty programs can be added
- Application and configuration updates can be made over the air, saving time and effort

Print On The Go
- Mobile, lightweight, thermal printer for customers who request receipts
- Custom printing capabilities with room on receipts for graphics, logos, multi-language fonts and promotions fostering added sales
- Clam-shell design offers simple paper loading to keep sales moving
- Long-life battery with one hour of continuous printing and eleven hours standby
- Quick-change, rechargeable battery eliminates the cost of buying new

Gateway To Opportunity
- Works with the highly secure VeriFone Way Transaction Gateway, helping to safeguard customers and merchants from fraud
- Rapid transaction processing for faster sales
- Terminal management and remote updates may be securely made over the air
- Supports all major U.S. payment processors, either directly or through a 3PP gateway
